## PREFACE

*South Australian Economic Indicators* is a monthly publication which contains the latest available data at the time of preparation for a range of statistical series that have been identified as indicators of economic activity in this State. In a number of cases the figures presented are preliminary and subject to revision in subsequent issues.

Written and graphic commentary have been included for many of the selected series and analysis has been augmented with the calculation of the percentage change from the previous reference period together with the presentation of comparative Australian data.

Time series information has been included to provide a historical perspective on many of the selected indicators. Future issues may be expanded to include further historical data in response to expressed user needs. This product is under continuous review and any suggestions for enhancement will be welcomed.

More detailed information on each series, including explanatory and technical notes, can be obtained from other Australian Bureau of Statistics publications or alternative data sources. To assist those seeking further information a source publication for each of the series has been documented in the statistical summary.

If you have any inquiries concerning this publication please contact the editor, John Callinan, telephone (08) 237 7307. All requests for statistical information should be directed to the ABS Information Service, GPO Box 2272, Adelaide SA 5001, telephone (08) 237 7100.

# REVIEW

## Overview

---

- The trend estimate (in current prices) for private new capital expenditure in South Australia for the March quarter 1996 was \$429 million and is a continuation of trend decline which commenced in March quarter 1995.
- The value of merchandise exports for April 1996 were \$352.7 million, a 9.3% increase on April 1995.
- The value of merchandise imports for April 1996 were \$278.7 million, an increase of 14.7% on the previous month and 10.3% on April 1995.
- The trend estimate of retail turnover in South Australia decreased by 0.1% in April 1996, continuing the decline in the trend estimate since October.
- The trend for the total number of dwelling unit approvals in April 1996 remained static.
- The value of non-residential building projects approved in April was \$27.5 million.
- The Price Index of Materials Used in House Building increased by 0.2% for the month of April 1996.
- The Price Index of Materials Used in Building Other than House Building showed no movement for Adelaide in April 1996.
- The trend estimate of employed persons in South Australia has been increasing since January 1996.
- The trend unemployment rate for South Australia has decreased from 9.9% in May 1995 to 9.6% in May 1996.
- In Adelaide in the year to March quarter 1996, the price index for established houses decreased by 3.5% and project homes by 1.1%.
- The trend estimate for the value of owner-occupied housing commitments for April 1996 was \$263.0 million, up 0.9% compared with March.

## State Accounts

---

**NOTE:** Deficiencies in the data sources used to estimate gross operating surplus for recent quarters may at times lead to the current price estimates of Gross State Product(I) being under or over stated for particular States. Consequently, the measured growth rate for constant price GSP(I) for those States will also be affected.

The constant price series for Gross State Product (GSP) have been labelled as 'experimental'. Users are cautioned that these estimates are derived indirectly by calculating a deflator from the expenditure components. It is emphasised that, at times, movements that can not be fully explained may be introduced into the constant price GSP(I) series through the use of this proxy deflator.

### Trend Estimates (Current Prices)

The gross state product (GSP) grew 1.5% in the December quarter 1995 compared with the national average of 1.3%. This is the second consecutive quarter in which GSP has exceeded the national rate.

Growth in both gross operating surplus (up 1.6%) and indirect taxes less subsidies (up 1.2%) exceeded the national average. The growth in wages, salaries and supplements (up 1.4%) has been below the national average since the December quarter 1993.

### Trend Estimates (Constant Prices)

The experimental GSP at constant prices grew 0.8% in the December quarter, 3.3% above that of the December quarter 1994.

**GROSS STATE PRODUCT - TREND  
(CONSTANT PRICES)**  
Quarterly Change

State final demand showed no change in the December quarter compared with a national increase of 0.5%. Only Queensland (-0.1%) recorded lower growth.

For the third consecutive quarter, the rate of increase in private final consumption expenditure slowed with the 0.7% increase in the December quarter being considerably below the strong growth of 1.7% experienced in the March quarter 1995.

Public final consumption expenditure declined 2.3% in December.

Private gross fixed capital expenditure increased by 0.6% in December, the first quarterly increase since the December quarter 1994. Increases in expenditure on equipment and non-dwelling construction more than offset the decline in expenditure on dwellings.

## International Accounts

### Exports

In April 1996 the total value of merchandise exports was \$352.7 million an increase of 9.3% on April 1995. The reduction in seasonal agricultural products in April 1996 contributed to the decrease in total exports. The major commodity groups exported during April were cereal and cereal preparations, petroleum and petroleum products and metals and metal manufactures which accounted for 38% of total exports.

**Imports**

The value of merchandise imports for April 1996 were \$278.7 million, an increase of 14.7% on the previous month and 10.3% on April 1995. The commodity groups contributing to the increases were petroleum and petroleum products and other manufactured goods.

## Consumption and Investment

---

**Retail Turnover**

The trend estimate of retail turnover in South Australia decreased by 0.1% in April 1996, continuing the decline in the trend estimate since October. The trend estimate for Australia increased by 0.2%.

Over the past three months the trend estimate for South Australia has declined by \$5.6 million caused by the decreases of \$4.9 million in clothing and soft good retailing, \$4.0 million in hospitality and services group, \$3.8 million in the food retailing, and \$0.8 million in recreational good retailing. This was partly offset by increases of \$4.1 million in department stores retailing group, \$2.5 million in household good retailing, and \$1.3 million in other retailing.

The seasonally adjusted estimate of retail trade in April 1996 increased 1.2%. In original terms, South Australian retail turnover was \$745.0 million, an increase of 3.1% on April 1995.

**New Motor Vehicle Registrations**

The South Australian trend estimate for new motor vehicle registrations in April 1996 increased 1.0%. The trend estimate has been increasing since October 1995, but the rate of increase is slowing. The seasonally adjusted estimate for April 1996 decreased by 0.2% from March 1996 and increased by 9.9% from April 1995.

In original terms there were 3,292 new motor vehicles registered in April 1996, a decrease of 14.9% from March 1996 and an increase of 18.2% on April 1995. For new passenger vehicles, the leading makes registered in April 1996 were Holden (858 vehicles), Ford (513), Toyota (368), Mitsubishi (341) and Hyundai (143).

#### *Tourist Accommodation*

When the March quarter 1996 is compared with the March quarter 1995, number of rooms available in hotels, motels and guesthouses in South Australia increased from 10,603 to 10,757 while bed spaces increased from 29,877 to 30,473. Room nights occupied rose by 5.7%, exceeding a 1.5% increase in room supply and resulting in an occupancy rate of 55.1%. Regional room occupancy rates ranged from 65.7% in the Adelaide Statistical Division to 36.1% in the Eyre Statistical Division. Takings from accommodation increased by 10.7% from \$37.9 million to \$41.9 million with average takings per room night occupied rising from \$74 to \$78. The biennial Adelaide Festival of Arts was held in March 1996.

#### *Private New Capital Expenditure*

The trend estimate (in current prices) for private new capital expenditure in South Australia for the March quarter 1996 was \$429 million. The decrease of 1.6% from the previous quarter is a continuation of trend decline which commenced in March quarter 1995. The Australian figure rose by 1.9%. The South Australian total for the quarter now represents 4.6% of the Australian figure.

Private new capital expenditure in original terms for the March quarter 1996 was \$375 million, a decrease of 30.0% from the December quarter 1995. Buildings and structures accounted for \$72 million, and equipment, plant and machinery \$304 million. Expenditure for the 12 months to March 1996 fell by 12.2% with the Australian figure rising by 9.4%.

## Production

---

### Dwelling Approvals

The trend for the total number of dwelling unit approvals in April 1996 remained static. This follows declines of 2.0% in March and 3.0% in February.

The trend for the number of private sector house approvals increased by 1.3%. This figure follows increases of 1.0% in March and 0.3% in February.

In South Australia the number of dwelling units approved in original (unadjusted) terms was 430, a decrease of 1.6% on the previous month.

The national trend for the total number of dwelling units approved rose by 1.0% in April 1996 to 10,391, following increases of 0.6% in March and 0.5% in February 1996.

In original terms the total number of dwelling units approved nationally in April 1996 was 9,908, a decrease of 2.5% on March 1996, and was 6.3% lower than April 1995.

DWELLING UNITS APPROVED

### Dwelling Commencements

The number of new dwelling units commenced in South Australia continued to fall during the March quarter 1996. It was down 17.7% to 1,281. This compares with a fall of 8.2% nationally. There was a decrease of 37.9% in South Australia and 21.8% nationally when compared with the March quarter 1995. Expressed as a proportion of the national total, the number of commencements in South Australia was 4.6% compared with 5.2% last quarter and 5.8% for the March quarter 1995.

## NEW DWELLING UNITS COMMENCED

## Value of Non-residential Building Approvals

The value of non-residential projects approved in April was \$27.5 million. Of the total, shops accounted for \$8.0 million and offices \$7.1 million.

In April 1996, South Australia contributed 3.3% towards the total value of Australian non-residential building approvals of \$837.5 million.

The value of non-residential work, when expressed as average 1989-90 prices was \$118.3 million for the March quarter 1996, a 5.7% decrease on the December 1995 quarter.

## Value of Total Building Activity

The total value of building work commenced in South Australia during the December quarter 1995 rose 1.9% from the previous quarter to \$285.8 million. Compared with the December quarter 1994, South Australia had an 18.9% decrease in building commencements while the corresponding national movement was a 17.2% decrease. The South Australian share of the national total of building commencements was 4.8% for the December quarter.

The total value of building work done during the December quarter 1995 rose 9.2% to \$327.1 million compared with a decrease of 2.4% nationally. Compared with the December quarter 1994, South Australia had a 15.0% decrease in the value of total building work done while the corresponding national movement was a 6.8% decrease.

## VALUE OF BUILDING ACTIVITY

**Value of Engineering Construction** In the December quarter 1995 the value of engineering construction work done in South Australia rose by 19.8% (16.0% nationally) to \$169.5 million. South Australia had a 4.5% share of the national total. The value of work commenced during the quarter rose by 6.0% to \$144.0 million compared with a national decrease of 41.7%. The State's proportion of national commencements was 4.9%.

**Consumer Price Index**

For the March quarter 1996 the Consumer Price Index (all groups) increase of 0.4% for Adelaide was the same as the average for the eight capital cities. The annual increase for Adelaide was 3.2% while nationally the Consumer Price Index increased 3.7%.

**House Building Materials**

An increase in the price of Plaster, Builders' Hardware and Cupboards, offset by a decrease in Plastic pipes and Fittings, caused the Price Index of Materials Used in House Building to increase by 0.2% for the month of April in Adelaide. The weighted average for the six State capital cities rose by the same amount.

The Index decreased by 0.2% for the twelve months to April 1996, compared with the weighted average of the six State capital cities decrease of 0.9%.

### **Non-house Building Materials**

The Price Index of Materials Used in Building Other than House Building showed no movement for both Adelaide and the weighted average of the six State capital cities for the month of April.

Adelaide recorded a rise of 1.3% in the index for the past twelve months to April 1996. The weighted average for the six State capital cities rose by 1.3% for the same period.

## House Prices

The price index of established houses and project homes in Adelaide increased 0.2% and 0.4% respectively during the March quarter 1995. Nationally, over the same period prices for established houses decreased by 0.2% and project homes increased by 0.1%.

In Adelaide in the year to March quarter 1996, the price index for established houses decreased by 3.5% and project homes by 1.1%. Nationally, for the twelve month period, established house prices recorded a 0.9% decrease while project homes rose by 1.4%.

## Labour Force and Demography

### Population

At 31 December 1995 the estimated resident population of South Australia was 1,475,860. This was an increase of 0.08% (1,186) persons from the September quarter, which was below the national increase of 0.3%. The continuing low growth rate for South Australia is attributable to a net outflow in interstate migration of 1,512 persons which was offset by a net inflow of overseas migration of 946 persons and a natural increase of 1,752.

### Employment

The trend estimate of employed persons in South Australia has been increasing since January 1996, following a slight decline in the last three months of 1995. The May 1996 estimate (658,500) is almost one per cent higher than the level of twelve months ago.

In May 1996, the trend estimate of employed persons in Australia was 8,301,900. This was nearly one per cent higher than the level of twelve months ago. Over the past year, full-time and part-time employment have both increased by approximately one per cent.

### Unemployment

The trend unemployment rate for South Australia has decreased from 9.9% in May 1995 to 9.6% in May 1996. Over the same period, the trend unemployment rate for males has decreased from 10.9% to 10.5%, while the rate for females has decreased from 8.7% to 8.4%.

After remaining flat in the nine months to January 1996, the trend estimate of the unemployment rate in Australia has increased to 8.6% in May 1996.

*Overtime*

The proportion of employees who worked overtime in South Australia in February 1996 was 13.8%, compared with 16.3% in February 1995.

*Industrial Disputes*

There were 3,900 working days lost through industrial disputes in South Australia during February 1996. This was the highest monthly figure since February 1995 when there were 6,400 working days lost.

In the 12 months to February 1996, 12,800 working days were lost due to industrial disputes in South Australia. This was 4.7% of the national total and was the lowest percentage of all the mainland States.

**INDUSTRIAL DISPUTES**  
Working Days Lost

*Short term Overseas*

The number of arrivals of short term overseas visitors was steady at 7,972 for the month of March 1996, after rising by 24.0% in February. This compares with a fall of 6.9% in the number of monthly short term overseas visitors arriving in the whole of Australia for March.

*Visitor Arrivals*

**SHORT TERM ARRIVALS AND DEPARTURES**

**Short term Resident Departures**

There was an increase of 46.6% in the number of short term departures of residents of South Australia going overseas in March. This brought the number to 11,242, 1.3% more than in the same month last year.

The South Australian share of short term overseas visitors rose from 2.0% in February to 2.2% in March, while the proportion of residents leaving to go overseas for short periods fell from 4.6% of the Australian total to 3.1%.

---

**Incomes**

---

**Average Weekly Earnings**

The trend estimate of average weekly ordinary time earnings of full-time adult employees in South Australia increased from \$617.50 in November 1995 to \$623.10 in February 1996. Male full-time ordinary time earnings rose from \$646.70 in November 1995 to \$656.50 in February 1996. Over the same period, the comparable level for females decreased from \$555.70 to \$553.90.

Between November 1995 and February 1996, the trend estimate of average weekly total earnings of all employees in South Australia increased from \$515.10 to \$517.90.

Since it is an average of earnings across all employees, changes in average weekly earnings may occur through changes in employment as well as changes in pay levels.

**Award Rates of Pay**

Over the 12 months to April 1996, the weekly award rates of pay index for full-time employees in South Australia increased by 1.4%.

For full-time adult male employees, the largest annual movement of the index occurred in the electricity, gas and water supply industry division, with an increase of 3.5%.

For full-time adult female employees, the largest annual movements of the index occurred in the transport and storage industry with an increase of 2.7%.

---

**Financial Markets**

---

**Housing Finance**

The trend estimate for the value of owner-occupied housing commitments for April was \$263.0 million, up 0.9% compared with March. This maintains the upward movement in the State trend estimate since March 1995. In comparison with April 1995 the trend estimate is 18.2% higher for the State while the national figure is 14.5% higher.

Total housing finance commitments (original figures including alterations and additions) for the last seven months have been significantly above the corresponding months of the previous year. During April they decreased 13.0% to \$267.8 million compared with the previous month but were 26.4% higher than April 1995. Refinancing decreased by 9.6% to \$60.0 million from the record figure in March but represented 22.4% of the total commitments.

Finance commitments for construction of dwellings decreased 18.0% to \$26.2 million compared with the previous month, but were 6.5% higher than April 1995 and 5.3% as a proportion of the national figure. Finance commitments for the purchase of established dwellings, the largest category, were down 12.5% to \$152.0 million in April but 15.8% above the previous April. Commitments for the purchase of newly erected dwellings decreased 11.6% to \$11.3 million, down 9.5% on April 1995. Alterations and additions fell sharply, down 21.2% to \$18.3 million, 3.5% below the previous April.

#### Personal Finance

Personal finance commitments decreased marginally by 0.5% to \$185.1 million during April, but were 18.2% higher than April 1995, compared with national increases of 2.0% and 29.9% respectively. South Australian commitments represented 6.9% of the national total for the month.

Fixed loan commitments decreased by 12.7% to \$121.0 million from the high monthly figure for March. Although refinancing decreased 8.9% to \$28.1 million it was 66.9% above the previous April. Major decreases were also recorded for household and personal goods, down 36.9% from the record month in March, new and used motor cars and station wagons, individual residential blocks of land, and debt consolidation.

Personal finance commitments under revolving credit facilities increased by 35.0% to \$64.1 million during the month, 13.6% above April 1995. Secured personal finance commitments under revolving credit facilities increased by 75.2% to \$29.1 million and unsecured increased 13.4% to \$35.0 million, both significantly above the previous April.

## *Commercial Finance*

Commercial finance commitments under fixed loan facilities decreased by 21.2% to \$270.4 million during April which was 22.7% above April 1995. The main decreases were for manufacturing, transport and storage, property and business services, and community services, all of which had high commitments in the previous month. The main increases occurred for wholesale trade and construction.

The main increases were in revolving credit facilities for mining, manufacturing, and wholesale trade which were only partially offset by the big falls in categories such as transport and storage, and property and business services.

## Lease Finance

Although the value of goods under new finance lease commitments decreased during April by 35.8% to \$16.3 million, the last three months have been significantly above the corresponding months of the previous year. However the South Australian proportion of the national figure was down to 2.8%, compared with 3.8% in March.

All categories of motor vehicles decreased significantly during the month except new and used heavy trucks. New motor cars and station wagons not subject to depreciation, the largest category, decreased by 19.8% to \$4.2 million, 1.4% below the previous April. Commitments for those subject to depreciation decreased 52.6% during the month, but were 36.5% above the previous April.

Commitments for construction and earthmoving equipment declined to \$1.1 million after two very high months but for the third consecutive month were considerably above the corresponding months of the previous year. The other major falls were for manufacturing equipment and electronic data processing equipment. Shop and office furniture, fittings and equipment and office machines had big increases with both reaching \$1.4 million.

## Forward Outlook

---

### Composite Leading Indicator

The Composite Leading Indicator (CLI) is a single time series produced by aggregating eight individual economic indicators, and has been developed by the ABS as an experimental series to supplement existing forms of economic analysis and modelling.

The CLI summarises the early signals contained in a selection of economic indicators and is designed to assist the detection of turning points between successive expansions and slow downs of economic activity as measured by constant price GDP(A). It does not attempt to forecast the level of economic activity.

**In the December quarter 1995 :**

- the experimental CLI fell 0.07%, the fifth consecutive fall since the September quarter 1994 peak. However the rate of fall eased from 0.29% in the September 1995 quarter.
- the last turning point in the CLI is coincident with the last turning point in the reference series (deviations in the trend growth rate of GDP(A) from its historical long-term trend).

The quarterly data are released in more detail in the *Australian Economic Indicators* (1350.0). The CLI was the topic of the Focus article in the September 1993 edition of *South Australian Economic Indicators* (1307.4).

### Australian Business Expectations

Surveys of business expectations have been available to decision makers for a number of years from several sources. These surveys provided *qualitative* indicators in the form of the net proportion of businesses expecting a rise or fall in future business conditions. Since the December quarter 1993, the ABS has been compiling a *quantitative* indicator of business expectations in the form of an expected weighted aggregate change in a range of economic variables. These data are available on a quarterly basis in *Australian Business Expectations* (5250.0).

### AUSTRALIAN BUSINESS EXPECTATIONS SOUTH AUSTRALIA AND AUSTRALIA SALES OF GOODS AND SERVICES EXPECTED PERCENTAGE AGGREGATE CHANGE

Reference Period	Short term		Medium term	
	Expected aggregate change between		Expected aggregate change between	
	December 1995 and March 1996	March 1996 and June 1996	December 1995 and December 1996	March 1996 and March 1997
	%	%	%	%
South Australia	0.6	1.5	2.5	3.6
Australia	-0.2	2.3	4.4	4.1

#### *Short term*

Businesses in South Australia expect a rise of 1.5% in sales of goods and services in the June quarter 1996 compared with the March quarter while the national expectation was a 2.3% increase.

#### *Medium term*

Businesses in South Australia expect sales of goods and services in the March quarter 1997 to be 3.6% above March quarter 1996. Australia wide the expectation was for 4.1% growth.

## ABS PUBLICATIONS AND PRODUCTS

Statistics collected by the ABS are generally made available in published form. Some, including those not published, are available in one or more of the following forms: microfiche, magnetic tape, computer printout, CD, floppy disk, photocopy and clerically extracted tabulation.

Current publications produced by the ABS are listed in the *Catalogue of Publications and Products, Australia* (1101.0). The ABS also issues on Tuesdays and Fridays a *Release Advice* (1105.0) which lists publications to be released within the next few days. The Catalogue and Release Advice are available from any ABS Office.

To receive ABS publications on a regular basis contact the ABS *Publication Mailing Service* on 1800 02 0608.

A large range of data is available via on-line services, diskette, magnetic tape, tape cartridge and CD ROM. For more details about our electronic data services, contact any ABS Office.

The ABS *Information Consultancy Service* has specialist staff to assist and advise clients with their statistical inquiries. For more detailed

information about these services call at the ABS, 55 Currie Street, Adelaide, telephone the Information Officer on (08) 237 7100, or write to Information Service, ABS, GPO Box 2272, Adelaide SA 5001.

The ABS also provides a *Statistical Consultancy Service*, for expert assistance in survey, sample and questionnaire design, data collection, processing and analysis, and statistical modelling. For more information contact Gary Niedorfer, telephone (08) 237 7379.
